

FOOTNOTES  
1980 CENSUS SUMMARY TAPE FILE 1

- 1 The count of households in the complete count tabulations by definition equals the number of occupied housing units. In this document, the terms households and occupied housing units are used interchangeably.
- 2 Vacant seasonal/migratory units are excluded from all other tabulation matrices.
- 3 For data tabulated on a 100-percent basis, includes all persons in the category "Other". For sample data, excludes those persons who have a write-in entry of an Asian & Pacific Islander group in the "Other" category.
- 4 "Asian and Pacific Islander", in the 100-percent tabulations, includes: "Japanese", "Chinese", "Filipino", "Korean", "Asian Indian", "Vietnamese", "Hawaiian", "Guamanian", and "Samoan". "Asian and Pacific Islander", in sample tabulations, includes the groups listed above and those persons who have a write-in entry of an Asian or Pacific Islander group in the "Other" category.
- 5 Relatives include: householder, spouse, and the questionnaire categories: "Son/daughter", "Brother/sister", "Father/mother", and "Other relative". Tabulations of "Other relatives" include all categories not shown separately in the matrix.
- 6 Nonrelatives include the questionnaire categories "Roomer, boarder", "Partner, roommate", "Paid employee", and "Other nonrelative". Tabulations of "Nonrelatives" include all categories not shown separately in the matrix.
- 7 Tabulations of "Persons in household" based on 100-percent data by definition are the same as tabulations of "Persons in unit". The phrase "Persons in household" is used unless the matrix is stratified by a housing item such as tenure, plumbing facilities, etc., in which case, the phrase "Persons in unit" is used. Tabulations of "Persons in household" and "Persons in unit" based on sample data are not necessarily the same due to differences in the procedures used to inflate sample population and housing data.
- 8 A "Child of householder" includes any son, daughter, stepchild, or adopted child of the householder. An "Own child of householder" is a never-married child under 18 years of age who is a son, daughter, stepchild, or adopted child of the householder. "Related children" include not only own children but also all other family members, regardless of marital status, who are under 18 years old, except the householder or spouse. Foster children are included in the "Nonrelative" category.
- 9 Vacant housing units include the questionnaire categories: "For rent", "For sale only", "Rented or sold, not occupied", "Held for occasional use", and "Other vacant". Tabulations of "Other vacant" include all categories not shown separately in the matrix.
- 10 This aggregate, along with the relevant count will permit the computation of a mean. For example, the aggregate value for the owner-occupied noncondominium units will yield the mean or average value when divided by the number of specified owner-occupied noncondominium units, and the aggregate number of rooms for occupied and vacant year-round units yields the mean or average number of rooms with the appropriate division. (See footnote 14 prior to computing mean value or price asked.)
- 11 The noncondominium value/price asked distribution is restricted to certain kinds of "owner-occupied"/"vacant-for-sale only" units. The following are excluded from the tabulations on value/price asked for noncondominium units:
  - A. Units at an address with two or more units
  - B. Units on 10 or more acres
  - C. Units with a commercial establishment or medical office on the property
  - D. Mobile homes or trailers
 Value/price asked is tabulated for all "owner-occupied"/"vacant-for-sale" condominium units.
- 12 Contract rent is tabulated for all "renter-occupied"/"vacant-for-rent" units except 1-family houses on a property of 10 or more acres. Units tabulated in the "No cash rent" category are all occupied housing units reported as "No cash rent" except one-family houses on 10 or more acres.
- 13 Lacking complete plumbing (facilities) for exclusive use includes: complete plumbing (facilities) but also used by another household, some but not all plumbing facilities, or no plumbing facilities.
- 14 Multiply the aggregate value/price asked by \$250 to obtain the true value or price asked. (The tabulation was scaled by a factor of \$250 for tally purposes.)
- 17 The North Carolina State Data Center acknowledges the cooperation of the New Jersey Data Center in sharing a computer program to output tables from Summary Tape File 1. This program was used, with modifications, to produce printed output from Census Tape STF1 for geographical areas in North Carolina. (Does not apply to tables in microfiche products.)
- 18 Suppression of data occurs when there are fewer than 15 persons/5 occupied housing units in an area (except for total population and basic housing counts, race, and Spanish origin characteristics). Complementary suppression may be applied to prevent derivation of suppressed data.
